- The aesthetically pleasing design of the diffuser complements the décor of any living space. The easy- to- use diffuser also comes with soft lighting to suit any ambience.

REED DIFFUSER

- Works on the principle of capillary action.
- When reeds, which are porous and excellent for diffusion, are partially immersed in a bottle of fragrance oil, fragrance travels up the reeds and gently permeates the room.
- The process gets the best out of your essential oils by releasing their fully aromatic and therapeutic properties, thanks to cold diffusion which maintains the delicate balance of the oil's chemical structure.
- ***A 24 hour aromatic experience; no fire, no ash, truly maintenance free.***
